Enchanted  
Forest

Welcome campers! This week's  
newsletter will include...

Challenges!

Recipes!

Fun Facts!

Drawing Prompts!

A Scavenger Hunt!

Summer Snack Ideas!

Movie Recommendations!

# Summer Snacks!

## Fruit-Kabobs!

To make one of the most fun and healthy summer snacks, put some of your favourite fruits on a skewer stick to make a summer fruit-kabob!

## Fresh Squeezed Juice!

You can buy fresh squeezed juice at the grocery store, but you can also try making it at home with your favourite fruit- or more than one to make a double-delicious juice! Add a straw and little umbrella on the side for a fun twist!

## Ice Cream Sundaes!!!

This one's definitely for dessert- decorate a couple scoops of ice cream with all of your favourite toppings- sprinkles, chocolate chips and more!

# Enchanted Recipes

## Unicorn Cupcakes

### Ingredients

24 cooled vanilla cupcakes or chocolate cupcakes  
1 cup unsalted butter softened  
4 cups powdered sugar  
1/4 teaspoon salt  
1 tablespoon vanilla extract  
2-3 tablespoons heavy whipping cream  
Pink blue, and purple food coloring  
Sprinkles

### Instructions

1. Make frosting: beat butter until creamy using a hand or a stand mixer. Slowly mix in powdered sugar, 1 cup at a time. Add salt and vanilla, then add 2 tablespoons of heavy whipping cream. Beat at medium high speed until smooth, adding more cream as needed for desired consistency.
2. Divide the frosting into 3 bowls. Color each a different color: pink, blue, purple.
3. Reynolds Kitchens Plastic Wrap Hack: lay out a piece of plastic wrap. Place one color frosting in the center and roll up like a log, squeezing the air out. Twist the ends to seal. Repeat with remaining colors of frosting. Cut off one tip of each plastic frosting log. Place all three, cut side first, into a large plastic pastry bag fitted with a 1M tip (or other desired tip).
4. Prepare the cupcakes: cut a small hole in the center of the cupcake and remove the piece of cupcake. Fill the hole with sprinkles, then replace the bit of cupcake.
5. Frost cupcakes with the swirl frosting. Top with additional sprinkles, if desired.
6. Store in an airtight container in refrigerator for up to 4 days.

# Challenges!

Here are some fun challenges that you and your family can try at home!

## Guess the food!

For this game, one player is blindfolded. The other player will pass them a cut-up food item such as a slice of carrot or a piece of cheese. The blindfolded player then can eat the food and try to guess what it is! To make this more of a challenge, you can try using similar foods such as honeydew melon and cantalope!

## Blindfolded drawing!

To start, one player is blindfolded and, using a marker or crayon, must draw a picture! Since they can't see, it is pretty tricky to draw a perfect picture, so the rest of the players can take turns looking at the drawing when it's finished and guessing what the blindfolded player drew. For a bigger challenge, you could set a timer and the person blindfolded would have a limited time (try 10 or 20 seconds) to draw the picture!

# Photo Scavenger Hunt!

Who can find and photograph the whole list in the fastest time? Here's an exciting challenge that you and your family can try...

## How to play!

Each player or team gets a camera (it could be a device such as an iPad) to take the photos with. The players then choose an area (your backyard, a small park) to play in. Everyone gets a copy of the list, and whoever snaps photos of everything on the list first wins!

## OUTDOOR PHOTO SCAVENGER HUNT

### A PICTURE OF THESE:

- a leaf
- a bird
- an insect
- tree seed
- a flower
- a really cool rock
- a beautiful cloud
- something orange
- something that makes you smile

### A SELFIE:

- at the playground
- wearing sunglasses
- reading a book
- next to a tree

# Drawing Prompt

Imagine you are in an enchanted forest... surrounded by a rainbow of colors and cool creatures! Draw some of the creatures or characters you think you'd might like to see!

# Fun Facts about..

## The Benares Historic House!

-the house had to be re-built in 1857 because of a fire

- the house and the other Benares buildings on the property have since then been donated by the Harris family as a museum! It is open for guided tours, so maybe sometime in the future you can check it out with your family!

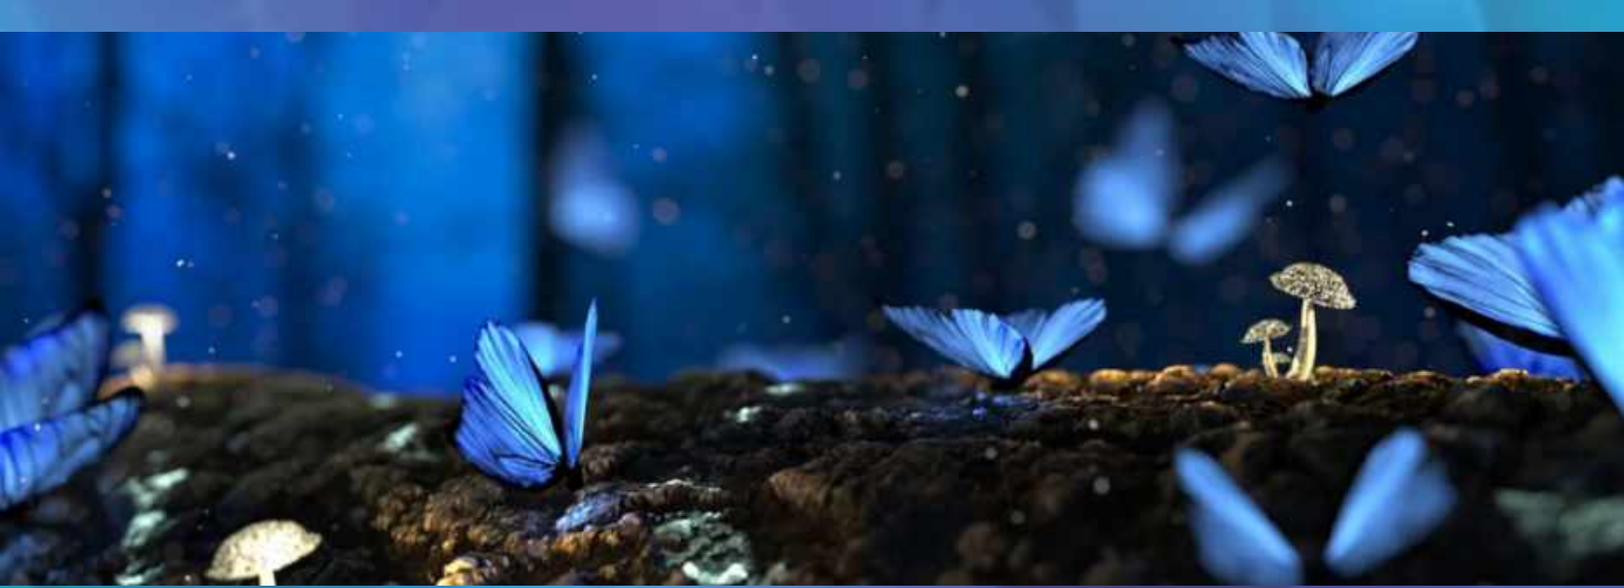

-it is a restored 19th century house (1800's)

-it was built by a man named Edgar Neave, in 1835 and then purchased by Captain James Beveridge Harris

-since then, four generations of the Harris family have lived there

But until then...

You can explore the house and other historic buildings on the property here! : <https://culture.mississauga.ca/collection/heritage-houses>

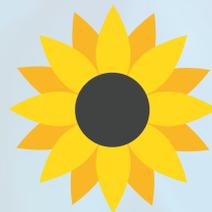

That's it for the Week 4 Newsletter!

Remember to email

[summercamps@clarksonchurch.ca](mailto:summercamps@clarksonchurch.ca) if you want any photos featured in the gallery, or if you have any ideas for next week's newsletter!

Have an amazing weekend!

- From Sunflower and the Saga and SPARC Team!!
