

My name is Bookworm and I love Jesus. He is my Lord. This week you are learning about David. David was a shepherd. His dad sent him to go find his brothers but instead David ended up fighting a giant named Goliath. The giant was making fun of the Israelites God. He said "Your creator is weak and you will lose if you fight against me." The Israelites needed someone to help them fight against Goliath. David prayed to God in heaven and asked the Lord to help him. David picked up a stone from the ground and put it into his sling and killed the giant. Can you imagine fighting against the largest man on earth? Sometimes we have problems that feel huge like a giant. Where do you go to find help when you are in trouble or a problem comes? This week's bible verse will help you answer that question.

Use the code below to solve the mystery verse.

You will need to use paragraph from the slide before.

How the code works:

The first number tells you which line the word can be found in and the second number tells you how many words to count across in that line. For example **1 8** is the word **Jesus** because it is in the first line, 8th word.

14 9 12 5 1 6 3 11 8 6 ?

1 1 15 6 16 3 11 3 12 3 10 4 5 4

6 8 6 1 9 8 12 1 13 6 .
